2 Reading

2.1 Reading Passage

次の英文を読み、あとの問いに答えなさい。それぞれの問いについて、最も適切な答えを A～D の中から 1 つ選び、記号で答えなさい。

Why do trends become popular?

Every year, new trends become popular with young people. A new dance, song, game, or style can suddenly appear everywhere. Many young people discover these trends through social media.

Why do people follow trends? One reason is that they want to share experiences with their friends. For example, when a new dance becomes popular, friends may learn it together and make their own videos. Trends can give people something fun to talk about and enjoy together.

However, not everyone follows every trend. Some people prefer to watch other people's videos without making their own. Others may decide that a popular trend is not interesting to them.

This shows that being popular does not mean that everyone likes the same thing. Trends can also disappear quickly. Something that is popular this month may be forgotten a few months later. However, some trends can have a longer influence. A popular song may introduce people to a new kind of music, or an online video may encourage someone to try a new hobby.

Social media makes it easy for trends to travel quickly, but young people still decide for themselves what they want to watch, try, or share.
